
Colleagues in the Philippines Volunteer for their Annual Medical, Dental and Feeding Mission

Sustainability . September 04, 2014

On July 27th, 17 of our colleagues from LF Philippines volunteered for a medical, dental and feeding mission at the Sta. Lucia High School in Pasig City in partnership with the Foreign Buyers Association of the Philippines, of which Li & Fung is a member.

Our colleagues, along with over 200 other volunteers that included doctors, students and school faculty members joined hands in supplying essential items and sundries to underprivileged families in the area.

Over 850 people were given necessary medical supplies and 102 received dental care by the end of the day. Recipients also walked away with loot bags for their families containing snacks and personal care items. Our LF Philippines colleagues were also thrilled to receive donations from their key customers and principals. Unilever Philippines donated Vaseline liquid soap bottles, Vaseline bar soaps and Pepsodent toothpaste, while Colgate-Palmolive Philippines and TVP Dental B donated toothbrushes. L'Oreal Philippines donated sachets of shampoos and conditioner. LF Asia – FHBC participated by sending over chewy candies, face & body powder and shampoo to our volunteers to complete the pack. The Jollibee Foods Corporation also donated peach and mango pocket pies for distribution.

Way to go LF Philippines for another successful mission in helping families in need! 🇵🇭
